The website is built on WordPress using Elementor.

We don't design websites,
we design dreams.

General terms

- The maximum period required to finish the work is 36 working days. Any delay from the client will result in a delay in the project delivery.
- After the Advance Payment, We Start to develop the homepage of the website and deliver it to the client to understand the direction that we are following.
- Client brief to be comprehensive exhaustive and should state all the necessary information and requirements.
- 50% of the total payment should be paid in advance prior to starting the work. The next 30% should be paid during the approval of the first draft & Homepage. The remaining 20% is to be paid post-project delivery.
- Payment must be done within 3 days from the estimated date.
- If the client does not like the initial first draft and homepage, the client may request a partial refund if they value the effort and time invested, or a full refund if they do not.
- Domain purchase and DNS details should be provided by the client to make sure that the basic controls are with the client for security reasons. For Email, we recommend using Google GSuite, Clients can directly make payments using their credit card, and We will support integrating the mail service.
- For every project, the package will allow up to two revisions (not corrections). The third revision will be charged additionally depending on the client's requirement.
- Initial products will be uploaded before going live. after that product upload should be taken care of by the client.
- Apart from the current scope of work, Any functionalities other than contact forms or galleries will be charged according to the requirement of the client.
- Detailed terms and conditions will be communicated with the client depending on the nature of the project.
